Exhibit 1

A Class A stock

The INPEX Group shall make maximum use of its well-balanced asset portfolio, its presence as a leading international mid-tier company and its technological capabilities, among others, as a high-quality operator to achieve early commercial production of large-scale oil and gas fields that have already been discovered. At the same time, as a core company in Japan that is internationally competitive, the INPEX Group will strive to proactively expand its business aiming to provide a stable energy supply for Japan in an efficient manner and further enhance its corporate value through expanding investments to acquire high-quality oil and gas fields.

Based on the basic policy, the Company has issued a Class A stock to the Minister of Economy, Trade and Industry to eliminate the possibility of speculative takeovers or management control by foreign capital, resulting in inappropriate management inconsistent with the Company's role to provide a stable supply of energy to Japan in an efficient manner as a core company, or causing any other adverse effects.

To make decisions on i) the appointment or removal of Directors; ii) the disposition of all or a portion of material assets; iii) amendments to the Articles of Incorporation relating to the Company's business objectives and granting voting rights to any shares other than the common shares of the Company (excluding voting rights in the meetings of the holder of the Class A stock, which are already granted to the Class A stock); iv) business integration; v) capital reduction and vi) company dissolution, a resolution of a meeting of the holder of the Class A stock (hereinafter "a general meeting of Class A stock shareholders") is required in addition to resolutions of the shareholders' meeting or the Board of Directors of the Company. However, concerning i) the appointment or removal of Directors and iv) business integration, resolution of a general meeting of Class A stock shareholders is required only when certain conditions under the Articles of Incorporation are met.

Concerning the exercise of voting rights at a general meeting of Class A stock shareholders, the Class A stock shareholder can exercise his/her voting rights in accordance with the guidelines set forth in a Ministry of Economy, Trade and Industry Notice (No. 220, 2008). According to the guidelines, a resolution regarding the aforementioned items i) and iv) shall be vetoed only "when it is judged there is a high probability that the Company will be managed inconsistent with its role to provide a stable supply of energy to Japan in an efficient manner as a core company," and a resolution to change the Articles of Incorporation related to granting voting rights to any shares other than the common shares of the Company (excluding voting rights in the meetings of the holder of the class A stock which is already granted to the class A stocks) in the aforementioned item iii) shall

be vetoed only “when there is a possibility that it may have an effect on the exercise of the voting rights of the class A stocks” and the aforementioned item ii) and amendment to the Articles of Incorporation related to the Company’s business objectives in the aforementioned item iii), and resolutions related to items v) and vi) shall be vetoed only “when it is judged there is a high probability that it may adversely affect its role to provide a stable supply of energy to Japan in an efficient manner as a core company.”

In addition, the Articles of Incorporation of the Company’s subsidiaries stipulate that, upon disposing material assets, a resolution of a general meeting of shareholders of the subsidiary is required when it constitutes a “disposition of all or a portion of material assets” in the aforementioned item ii). In this case, a resolution of the meeting of the holders of the class A stock is required in addition to a resolution of the Board of Directors of the Company. The Company’s Board of Directors does not have any power over the exercise of the veto right through the exercise of the voting rights of Class A stock by Class A stock shareholders. Therefore, Class A stock does not have the purpose of maintaining the position of the executive officers of the Company.

Given the limited scope of the veto right of the Class A stock, and because the voting rights shall be exercised in accordance with the guidelines for the exercise of voting rights by the Minister of Economy, Trade and Industry, which are set forth in a Ministry of Economy, Trade and Industry Notice (No. 220, 2008), this measure is designed to be highly transparent to avoid unreasonably impeding the efficiency and flexibility of the Company’s management and to minimize the impact thereof. For these reasons, the Company believes that this measure is in line with the basic policy and does not impair the common interests of the Company’s shareholders.

Exhibit 2
