(1) Explanation on Consolidated Financial Results

Net sales for the nine months ended September 30, 2023 decreased by ¥96.9 billion, or 5.7%, to ¥1,601.8 billion from the corresponding period of the previous fiscal year due to a decrease in sales price of crude oil. Sales volume of crude oil increased by 1,807 thousand barrels, or 1.8%, to 104,728 thousand barrels, and sales volume of natural gas increased by 40,423 million cf, or 12.5%, to 362,722 million cf. The average exchange rate of the Japanese yen against the U.S. dollar on consolidated net sales depreciated by ¥9.79, or 7.6%, to ¥138.12 per U.S. dollar. The decrease of ¥96.9 billion in net sales was mainly derived from the following factors: regarding net sales of crude oil and natural gas, an increase in sales volume contributing ¥63.0 billion to the increase, a decrease in unit sales price pushing sales down of ¥262.5 billion, the depreciation in the average exchange rate of the Japanese yen against the U.S. dollar contributing ¥102.7 billion to the increase, and a decrease in net sales excluding crude oil and natural gas of ¥0.1 billion.

Meanwhile, cost of sales decreased by \(\frac{\pmathbf{\text{26.8}}}{26.8}\) billion, or 3.9%, to \(\frac{\pmathbf{\text{454.5}}}{25.6}\) billion. Exploration expenses increased by \(\frac{\pmathbf{\text{40.8}}}{20.8}\) billion. As a result, operating income decreased by \(\frac{\pmathbf{\text{476.5}}}{20.8}\) billion, or 8.4%, to \(\frac{\pmathbf{\text{483.9}}}{20.8}\) billion.

Other expenses decreased by \(\xi\)47.6 billion, or 42.1%, to \(\xi\)65.4 billion mainly due to the absence of the modification loss on financial assets and others. As a result, ordinary income decreased by \(\xi\)32.1 billion, or 3.1%, to \(\xi\)995.6 billion.

Extraordinary loss was \(\frac{\pmathbf{475.6}}{100}\) billion as a result of posting impairment loss for a certain project due to changes in the external environment, including a tightening of environmental regulations in Australia, and others. Income taxes decreased by \(\frac{\pmathbf{4106.3}}{1000}\) billion, or 14.1%, to \(\frac{\pmathbf{4645.3}}{1000}\) billion, and net loss attributable to non-controlling interests was \(\frac{\pmathbf{45.8}}{1000}\) billion. As a result of the above effects, net income attributable to owners of parent increased by \(\frac{\pmathbf{413.7}}{1000}\) billion, or 5.1%, to \(\frac{\pmathbf{2280.3}}{1000}\) billion.

(Changes in Accounting Policies)

(International Accounting Standards (IAS) 12 "Income Taxes" (amended in May 2021))

Some of the Group's foreign consolidated subsidiaries and foreign equity-method affiliates have applied IAS 12 "Income Taxes" (amended in May 2021) from the first quarter ended March 31, 2023.

Due to the amendments, for transactions, such as for leases and decommissioning obligations, that give rise to equal taxable and deductible temporary differences at the time of the transaction, it is clarified that a company should recognize deferred tax liabilities and deferred tax assets arising from those differences. The amendments have been applied retrospectively and were reflected in the consolidated financial statements for the corresponding period of the previous fiscal year and for the previous fiscal year.

As a result of this change, and compared with the figures before the retrospective application, in the consolidated balance sheet as of December 31, 2022, investment securities decreased by \(\frac{4}{2}\),451 million, deferred tax liabilities included in other under long-term liabilities increased by \(\frac{4}{3}\),540 million, retained earnings decreased by \(\frac{4}{3}\),0983 million and translation adjustments decreased by \(\frac{4}{3}\),008 million. In the consolidated statement of income for the nine months ended September 30, 2022, equity in earnings of affiliates increased by \(\frac{4}{3}\),121 million and income taxes increased by \(\frac{4}{8}\)89 million, compared with the figures before the retrospective allocation. In addition, because the cumulative effect was reflected in net assets as of the beginning of the year ended December 31, 2022, retained earnings as of the beginning of the previous fiscal year decreased by \(\frac{4}{3}\),3,776 million.

(Additional Information)

(Modification gain and loss on financial assets and others)

In accordance with International Financial Reporting Standards (IFRS) 9 "Financial Instruments" implemented to foreign consolidated subsidiaries, the gain or loss was recognized mainly due to modification of financial assets that do not result in derecognition, revisions to estimated future cash flows of financial assets, and other factors.

(Application of practical solution on the accounting and disclosure under the group tax sharing system)

The Company and certain domestic consolidated subsidiaries have transitioned from the non-consolidated tax payment system to the group tax sharing system from the first quarter ended March 31, 2023. In accordance with the transition, the accounting treatment and disclosure of corporate tax, local tax and tax effect accounting are based on "Practical Solution on the Accounting and Disclosure Under the Group Tax Sharing System" (Accounting Standards Board of Japan ("ASBJ") Practical Issues Task Force No.42, August 12, 2021).

(Segment Information and Others)

(Segment information)

I. Information on changes in reportable segments and others

The reportable segments of the Group are components of the Group for which discrete financial information is available and regularly reviewed by the Board of Directors to make decisions about allocation of managerial resources and to assess their performance. Following the significant reclassifications to the business portfolio based on the Medium-term Business Plan announced in 2022 and the accompanying changes of the evaluation and analysis indicators used by the Board of Directors, the Group made corresponding changes in segment income and reportable segments.

Segment income was previously reconciled with operating income on the consolidated statement of income. However, because net income attributable to owners of parent is a management target in the Medium-term Business Plan and it is used as an indicator by the Board of Directors to make decisions about allocation of managerial resources and assess performance, the reconciliation was changed and segment income is reconciled with net income attributable to owners of parent on the consolidated statement of income from the first quarter ended March 31, 2023 in order to conduct evaluations and analyses that are more in line with actual conditions. In addition, as the main business of the Group is the global exploration, development, production and sales of oil and natural gas, and loans and investments in companies engaged in such activities, namely the oil and natural gas business ("Oil & Gas"), the Group had previously used reportable segments by region. However, due to significant reclassifications to the business portfolio, the addition of initiatives for the five net-zero businesses to the Long-term Strategy, and other factors, the reportable segments have been classified as "Oil & Gas Japan" and "Oil & Gas Overseas" from the first quarter ended March 31, 2023. The "Oil & Gas Overseas" segment is further classified as "Ichthys Project," which is a major operator project of the Group, and "Other Projects," which is comprised of other overseas projects. The "Other" category consists of the operating segments that are not included in the reportable segments, including the five net-zero businesses. The reportable segments and other category after the changes are as follows.

Reportable segments, etc.		Main business and project name		
Oil & Gas Japan		Minami-Nagaoka Gas Field, Naoetsu LNG Terminal		
Oil & Gas Overseas	Ichthys Project	Ichthys LNG Project in Australia and exploration of surrounding area		
	Other Projects	Projects in Australia (excluding the Ichthys LNG Project), Southeast Asia, Europe, Abu Dhabi, and other areas		
Other		Five net-zero businesses, transportation and sales business, civil engineering business, etc.		

The segment information disclosed for the nine months ended September 30, 2022 has been prepared based on the categories after the changes. In addition, the changes in accounting policies have been made from the first quarter ended March 31, 2023, and the figures after retrospective application are used in the nine months ended September 30, 2022.
