INPEX-operated Ichthys LNG Project Reaches
100th LNG Cargo Shipment Milestone

TOKYO, JAPAN - [INPEX CORPORATION](https://www.inpecorp.com) (INPEX) today announced that the 100th shipment of liquefied natural gas (LNG) has departed from the INPEX-operated Ichthys LNG Project's (the Project) onshore gas liquefaction plant in Darwin in the Northern Territory of Australia. Shipments of LNG from the Project commenced in October 2018.

100th shipment of LNG from the Ichthys LNG Project

INPEX will continue to lead efforts to sustain stable operations at the Ichthys LNG Project with the understanding and cooperation of all its stakeholders, including the project's joint venture partners, the local communities, the Australian federal government and the governments of the Northern Territory and Western Australia. Approximately 70% of the LNG produced is scheduled to be supplied to Japanese customers. Through the Project, INPEX is poised to contribute further to the stable supply of energy to Japan while responding to the energy demand in Asia and around the world.

Furthermore, INPEX will apply the knowledge, skills and experience acquired as operator of the Project to the development, operations and management of the Abadi LNG Project

in Indonesia and other projects it is involved in, to grow its business and further enhance its corporate value.

About INPEX

INPEX CORPORATION is Japan's largest exploration and production (E&P) company, and a mid-tier E&P player just behind the world's oil majors. INPEX is currently involved in approximately 70 projects across more than 20 countries, including the Ichthys LNG Project in Australia as Operator. Through sustainably growing its oil and gas development business, developing a global gas value chain business and reinforcing its renewable energy initiatives, INPEX aims to become a leading energy company and continue providing a stable and efficient supply of energy to its customers.
